

IMS™ for Cardiology

A fully integrated EHR / Practice Management solution specifically designed to meet the needs of the Cardiovascular Practice

Performing rapid diagnosis and life-saving treatment are critical components of cardiovascular care – they can be cumbersome and challenging if your practice is not digital and electronically connected. Move your Cardiology practice to IMS EHR, for quick and accurate diagnosis and treatment of your patients' cardiology needs.

Cardiovascular Templates and Workflow

Automate documentation, complete exams and diagnostic tests quickly and easily with point and click Cardiology template content and workflow. The template editor lets practices customize and add templates to suit individual preferences, allowing physicians to work as their particular practice and personal preferences demand. Templates feature intuitive pick-lists, and checkboxes to simplify documentation encouraging chart completion.

From anywhere in the EHR you can order and review critical tests and lab results with just a few clicks. This fully integrated electronic health records (EHR) and practice management (PM) solution is ideal for the cardiologist, connecting them to patients, payers, medical devices, pharmacies, labs and other health care entities regardless of the practice size, specialty and number of locations.

IMS v14 earned "Complete"
2014 ONC-ATCB
certification for ARRA

2014 Meaningful Use
Stage 2 Certified
Complete EHR

IMS for the Cardiology Practice

- Simplify patient visits with cardiology-specific templates for faster, more comprehensive documentation, storage, and retrieval of detailed patient data.
- Enhance workflow with a paperless office. Gain better communications, greater efficiency, and deliver better patient care.
- Improve overall revenue with accelerated reimbursement, automatic coding recommendations, decreased denials, and increased patient flow.
- Built-in reporting tools scrutinize your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements, and business analysis.
- Access patient information at the point of care, no more chart pulls, and no more misplaced records.
- Eliminate redundant paperwork, enable patients to complete forms with integrated patient portal, and in-office kiosk.
- Achieve interoperability and connectivity with other health care entities, pharmacies, and labs for referrals, orders and results.
- Local ongoing support from a national team of industry experts -- IIMS Authorized Partners, dedicated to serving the needs and interests of cardiologists.
- Automate prescription writing, drug interaction and formulary checking with automatic alerts, and a fully-integrated drug database.
- Easily deliver patient education materials for cardiology-specific tests, procedures, and disease management.

Up to \$44,000

The Medicare EHR Incentive Program provides payments to eligible professionals as they adopt, implement, upgrade and demonstrate meaningful use of certified EHR.

Purchase with Confidence

IMS™ is guaranteed to meet all of the ARRA meaningful use criteria and requirements or your money back. IMS™ has received the most current CCHIT certification, and, as of September 30, 2010, the most recent version was recognized by CCHIT as a Stage 1 Meaningful Use certified Complete EHR with ONC-ATCB 2011/2012 Certification, meeting all criteria published by the U.S. Department of Health and Human Services (HHS) in the Final Rule.

"I really like working with you, Diane. I appreciate your honesty and professional help! Keep it up!"

IMS Features

- **Special Procedures**

Users can define the various stages and medications involved in a specific procedure. Procedures requiring multi-tasking are easily documented and associated CPT codes are automatically updated in the Super Bill.

- **E-Prescribing and Prescriptions**

The flexible and comprehensive prescription module tracks medications and refill history. Improve patient care with drug education integration, dosing, allergy and drug interaction, and contraindication checks.

- **Authorization / Referrals**

Reduce missing authorizations and claim rejections with authorization checking at Check-In and Charge Posting. Authorization requirements can be set by procedure and insurance criteria.

- **Quick documentation with Cardiology-specific Templates**

Monitor Congestive Heart Failure, CAD, hypertension, and more plus exchange clinical data for vital signs, stress tests, treadmills, and much more.

- **Plus so much more**

Scheduler, Patient Portal, Integrated Appointment Reminders, Auto Check-In, Check-In/Out, Lab Orders & Tracking, Letter Writing, My Tasks Dashboard, Health Maintenance Reminders, Dispensary, Document Management, Reports Preparation and Management, Fax Management, Scan Module, Billing and Collections, and Auto Form Filler.

The IMS Difference

IMS Ambulatory Electronic Health Record (EHR) and Practice Management software are fully integrated sharing a single database, to meet your unique clinical and administrative needs. Our solutions can be implemented as an integrated solution or separately as stand-alone applications and can be deployed as a client-server or web-hosted solution.

It takes more than just software to deliver success in today's complex practice. That's why IMS ensures your success with our local Authorized Partners, experienced in health IT and certified in our solutions.

IMS Authorized Partners are with you all the way, from demonstrating IMS to implementation and beyond –your local ongoing single source solutions partner. As an Authorized Partner we're always available for fast on-site or phone support, training and revenue improvement services so you can concentrate on practicing medicine not technology.

"I was quite happy you were working on my billing issues, knowing you had worked on this made me much less stressed because I knew the check would be coming."

Cardiology templates allow for a significant reduction in the cost of dictation and transcription.

Why Synergy Healthcare for your EHR solutions?

Our firm is vastly different in that we are a total turn-key healthcare solutions partner. Here are a few reasons why we are different:

Schedule
a Demo
Today!

- **Integrity:** our philosophy is simple in that all we do adheres to complete integrity, to our clients and ourselves. We earn the trust and respect of our healthcare clients and keep it.
- **Experience:** we offer a highly trained and knowledgeable team with over 20-years of IT; security; practice management, certified billing/coding; and business management experience.
- **Hardware/Network:** we offer full hardware, networking and security services. A poor network structure will render any EHR problematic. If an EHR system is difficult and problematic – your staff won't use it.
- **Training:** we offer training options on every aspect of the EHR system so that the client can utilize their new system to maximum potential.
- **Effort Coordination:** healthcare providers and their staff are already stretched to the max with daily responsibilities with no time to coordinate multiple vendors to get an EHR operational. We solve this problem being a total solutions healthcare vendor (1 vendor=1 call).

We offer a select portfolio of services and products that are highly integrated resources to aid healthcare providers to strengthen their resources and empower them with tools to improve efficiency, productivity, profitability, while improving the quality of healthcare delivery.

- **Remote Data Backup:** meeting HIPAA compliancy.
- **Monitoring:** most healthcare practices do not have full time on-site IT staff our solutions reduce costs yet keep practices productive.
- **Revenue Cycle Management:** integrated products and services to keep your cash flow flourishing.
- **Billing Services:** Medical billing services tailored to your unique needs.

Our select portfolio of products and services benefits our clients by: effectively managing healthcare technology; meeting or exceeding goals; coordination of technology efforts to reduce staff frustration with change; improve healthcare efficiency and productivity; reduce errors and thus mitigating risk exposure of client.

"I have worked with many practice management systems, and IMS, by far, is the best system I've used. I'm impressed with the ease of working the AR as well as doing claim corrections. I like the fact that I can do almost every thing I need to do in a patient's account through the "ledger."
